

Abusix Successfully Achieves SOC 2 Compliance

KARLSRUHE, Germany - March 13, 2024 - [PRLog](#) -- Abusix, the leading provider of spam filtering services and network abuse management, is pleased to announce the successful completion of its System and Organization Controls (SOC) 2 Type II audit, achieving compliance with the leading industry standards for customer data security. This report shows Abusix's ongoing commitment to providing a secure data environment for our customers.

Developed by the American Institute of Certified Public Accountants (AICPA), a SOC 2 information security standard is a report that validates controls relevant to security, availability, integrity, confidentiality, and privacy.

The audit was completed with the help of Johanson Group LLP, a premier certification body helping organizations to obtain and maintain global compliance standards.

Johanson Group attested to Abusix's information security controls meeting the leading industry standards for network abuse management. Johanson Group specializes in SOC 2 audits and provides audit and professional services to public and private companies, large and small, in a variety of industries.

SOC 2 has a rigorous requirement on how companies handle customer data and information, so compliance guarantees there are established and implemented organizational practices in place to safeguard customer data.

At its core, Abusix is committed to providing email security and network abuse management solutions to industries such as telecommunications, email service providers, and information technology enterprises. Data integrity and security are a fundamental part of how Abusix operates. SOC2 Type II compliance represents a commitment that secure systems and controls are maintained by the organization on an ongoing basis.

About:

Abusix's mission is to keep email secure and fight network abuse on a global scale. Our goal is to make the internet a safer place and to transport security-related data as fast as possible to the right place and make it actionable for mitigation. Visit <http://www.abusix.com> to learn more.
